CERTIFICATION AND SPECIAL AUDITS

PAGE 2 OF 5

1.0 OBJECTIVE

To ensure that the conditions for reducing, extending, suspending and withdrawing certification are clearly defined.

2.0 SCOPE

This procedure covers all certifications of management systems for the clients certified by **TQS** and also for carrying out special audits when required.

3.0 RESPONSIBILITY

The responsibilities for implementation and compliance are as indicated in the procedure.

4.0 PROCEDURE

4.1. Criteria for extending the scope of certification

TQS requires that a certified organization seeking extension to the existing scope, shall apply with the supporting documents. These are reviewed by CE and AGM-QA to assess whether the extension sought to current scope can be granted and it is within the capability of **TQS**.

4.1.1 Procedures as applicable for contract review and for organizing audits covering the revised scope are followed for grant of extension.

4.1.2 Depending on the need, it may be combined with surveillance audits or an exclusive audit may be organized by AGM-QA. The existing documented procedures are adhered to revise the certificate.

4.1.3 The conditions for extending or reducing the scope of certification are indicated in **ANNEXURE – I**.

4.2 Suspending, withdrawing or reducing scope of certification

The decision for suspension, withdrawal or reducing scope of certification is taken based on the criteria given in **ANNEXURE – I**. Any suspensions and withdrawals are denoted in the List of clients accordingly and the list shall be made publicly accessible.

4.2.1 Upon suspension the client's management system becomes temporarily invalid. CE or AGM-QA liaise with the client and invokes the enforceable arrangements made with the client and ensure that the client refrains from further promotion of certification.

4.2.2 The suspension status is made accessible to public and **TQS** shall take any other measures considered appropriate.

4.2.3 Failure to resolve the issues that have resulted in suspension within 6 months shall result in withdrawal of certificate or reduction of the scope of certification.

4.2.4 AGM-QA ensures, as a part of certification agreement that an enforceable arrangements are made with the clients, on the conditions of withdrawal. The agreement covers issuance of notice of withdrawal to the client, to discontinue its use of all advertising or any communication that contains reference to a certified status.

4.3 The directory of certified clients is updated incorporating current status and this is made publicly accessible. Upon receipt of request from any party, AGM-QA ensures communication of current status correctly of the client's management system as being suspended, withdrawn or reduced.

4.4 **Short – notice audits.**

- Short notice audits may be required to be conducted to investigate complaints or in response to the changes or as a follow up of suspension of certification.
- In these cases AGM-QA informs in advance to the certified clients providing the conditions for these short notice audits. Also additional care is taken in the assignment of the audit team because of the lack of opportunity for the client to object to audit team members.
